

Under the Service Occupation Tax Act, servicemen are taxed on tangible personal property transferred incident to sales of service. See 86 Ill. Adm. Code 140.101. (This is a GIL.)

November 29, 2000

Dear Xxxxx:

This letter is in response to your letter dated October 12, 2000. The nature of your letter and the information you have provided require that we respond with a General Information Letter, which is designed to provide general information, is not a statement of Department policy and is not binding on the Department. See 2 Ill. Adm. Code 1200.120(b) and (c), which can be found on the Department's website at <http://www.revenue.state.il.us/legalinformation/regs/part1200>.

In your letter, you have stated and made inquiry as follows:

COMPANY is requesting information regarding your state's sales and use tax regulations and rulings regarding the following COMPANY products/service contracts:

1. Product: PRODUCT is an insecticide product for use in controlling termites. It is currently sold in a concentrated form through distributors to pest management professionals (PMPs). PMPs are licensed by the state to apply termiticide products. PMPs mix the PRODUCT wettable powder with water to reach desired dilution levels and apply product. Is the product taxable to the PMP? If the product is taxable to the PMP, may the PMP purchase the product under a valid tax exemption resale certificate?
2. Service Contract: NAME is an extended warranty for homeowners and small business owners, guaranteeing termite control for up to 5 years with a yearly renewable contract. This service contract is not yet available. Is the service contract taxable?

Please provide letter ruling on the taxability of these two items, citing references and a printout of the citation, if possible. Should you have questions, please contact me at #####.

Thank you for your assistance.

Retailers' Occupation Tax and Use Tax do not apply to receipts from sales of personal services. Under the Service Occupation Tax Act, servicemen are taxed on tangible personal property transferred incident to sales of service. For your general information we are enclosing a copy of 86 Ill. Adm. Code 140.101 regarding sales of service and Service Occupation Tax.

The purchase of tangible personal property that is transferred to service customers may result in either Service Occupation Tax liability or Use Tax liability for the servicemen, depending upon which tax base the servicemen choose to calculate their liability. Servicemen may calculate their tax base in one of four ways: (1) separately stated selling price; (2) 50% of the entire bill; (3) Service Occupation Tax on cost price if they are registered de minimis servicemen; or, (4) Use Tax on cost price if the servicemen are de minimis and are not otherwise required to be registered under Section 2a of the Retailers' Occupation Tax Act.

Using the first method, servicemen may separately state the selling price of each item transferred as a result of sales of service. The tax is based on the separately stated selling price of the tangible personal property transferred. If servicemen do not wish to separately state the selling price of the tangible personal property transferred, those servicemen must use the second method where they will use 50% of the entire bill to their service customers as the tax base. Both of the above methods provide that in no event may the tax base be less than the cost price of the tangible personal property transferred. Under these methods, servicemen may provide their suppliers with Certificates of Resale when purchasing the tangible personal property to be transferred as a part of the sales of service. Upon selling their product, they are required to collect the corresponding Service Use Tax from their customers.

The third way servicemen may account for their tax liability only applies to de minimis servicemen who have either chosen to be registered or are required to be registered because they incur Retailers' Occupation Tax liability with respect to a portion of their business. Servicemen may qualify as de minimis if they determine that their annual aggregate cost price of tangible personal property transferred incident to sales of service is less than 35% of their annual gross receipts from service transactions (75% in the case of pharmacists and persons engaged in graphic arts production). See, 86 Ill. Adm. Code 140.101(f) enclosed. This class of registered de minimis servicemen is authorized to pay Service Occupation Tax (which includes local taxes) based upon the cost price of tangible personal property transferred incident to sales of service. Servicemen that incur Service Occupation Tax collect the Service Use Tax from their customers. They remit the tax to the Department by filing returns and do not pay tax to suppliers. They provide suppliers with Certificates of Resale for the property transferred to service customers.

The final method of determining tax liability may be used by de minimis servicemen that are not otherwise required to be registered under Section 2a of the Retailers' Occupation Tax Act. Servicemen may qualify as de minimis if they determine that their annual aggregate cost price of tangible personal property transferred incident to sales of service is less than 35% of their annual gross receipts from service transactions (75% in the case of pharmacists and persons engaged in graphic arts production). Such de minimis servicemen may pay Use Tax to their suppliers or may self-assess and remit Use Tax to the Department when making purchases from unregistered out-of-State suppliers. Those servicemen are not authorized to collect "tax" from their service customers because they, not their customers, incur the tax liability. Those servicemen are also not liable for Service Occupation Tax. It should be noted that servicemen no longer have the option of determining whether they are de minimis using a transaction by transaction basis.

The taxability of maintenance agreements is dependent upon whether the charge for the agreement is included in the selling price of tangible personal property. If maintenance agreements are sold separately from tangible personal property, the sale of the agreement is not a taxable transaction. However, when tangible personal property is transferred pursuant to a maintenance agreement, the company providing the maintenance or repair will be acting as a service provider under the Service Occupation Tax Act. The Service Occupation Tax Act provides that when a service provider enters into

an agreement to provide maintenance services for a particular piece of equipment for a stated period of time at a predetermined fee, the service provider incurs Use Tax based upon its cost price of tangible personal property transferred to the customer incident to the completion of the maintenance service. See 86 Ill. Adm. Code 140.301(b)(3), enclosed.

I hope this information is helpful. The Department of Revenue maintains a website, which can be accessed at www.revenue.state.il.us. If you have further questions related to the Illinois sales tax laws, please contact the Department's Taxpayer Information Division at (217) 782-3336.

If you are not under audit and you wish to obtain a binding Private Letter Ruling regarding your factual situation, please submit all of the information set out in items 1 through 8 of the enclosed copy of Section 1200.110(b).

Very truly yours,

Melanie A. Jarvis
